

JOB OFFER: PHD Candidate

2Eyes Vision (www.2eyesvision.com) is a Spin Off company of the Spanish National Research Council (CSIC) with the purpose of creating and developing technologies for visual diagnostics and corrections. We are seeking a PhD candidate in the field of Visual Optics to work in the context of an industrial PhD grant funded by the Spanish Ministry of Economy (Doctorado Industrial).

The candidate will join a young and dynamic environment and will have the opportunity to work with a highly recognized research laboratory (Visual Optics and Biophotonics Lab, CSIC) and an outstanding group of national and international collaborators. The output will have high scientific, clinical and economic impact. After graduation, there will be opportunities for joining the company staff.

PHD Project

1. R+D activities
2. Software/firmware development
3. Conceptualization and exploration of new potential products

During the project the candidate will collaborate with the Visual Optics and Biophotonics Lab of the CSIC, a world-class lab in the field of visual optics (www.vision.csic.es) and scientifically support the R+D director of 2Eyes Vision.

Requirements

1. Engineer with interest in applied science and medical technologies.
2. Advanced knowledge of software and firmware programming, device connectivity, and app development for smartphones and tablets.
3. Willing to enroll in a PhD program.
4. Excellent interpersonal and communication skills in English and Spanish.

Conditions

1. 3+1 year contract
2. Salary: 18.000€
3. Starting date: flexible

Please submit your application electronically, including motivation letter, CV and list of references to: 2eyesvision@2eyesvision.com.

Please indicate reference: Job Offer-Industrial CANDIDATE.

Deadline to contact 2Eyes Vision: January 18th, 2016

(Grant application deadline: February 15th, 2017)
