

Deneb Medical (www.denebmedical.com) is a start-up based in San Sebastian (Spain) focused in the development of a novel surgical CoBot. The company is looking for an **Expert in Optics and Photonics** that will work on the design, integration, and experimental validation of different optical systems.

This is an excellent opportunity for an engineer or physicist with broad experience in the field of optics and photonics seeking to apply his talent and knowledge in the medical devices industry. The candidate will have a great degree of freedom to put his skills into practice in an ambitious project with international reach and excellent future perspectives.

Requirements:

- A minimum of 5-year experience in the design, development, assembly and validation of optical systems
- Experience in laser laboratory instrumentation and skills in experimental optics
- Master's degree or PhD in Engineering, Optics, or Physics
- Fluent in English

If you are interested please send an email with your CV, and cover letter to info@denebmedical.com.
