Física Teórica/CAPA

## *“News on the muon $g-2$ : an informal discussion”*

*Pere Masjuan (IFAE)*

&

*Alejandro Vaquero (Utah U.)*

---

### **Abstract:**

In the light of the recent experimental results on the muon  $g-2$ , we would like to scrutinize the Standard Model contributions, comment about its weak and strong points, and openly discuss with the Zaragoza group about possible avenues to explain the apparent anomaly.

Time: Wednesday 28, 16:30

(Note the unusual day and time!)

Seminar online: <https://rediris.zoom.us/j/82727169853>
