

"Ph-D POSITION AVAILABLE in THEORETICAL NEUTRINO ASTROPHYSICS"

There is an opening for a Ph-D position in theoretical neutrino astrophysics (propagation of neutrinos in dense media, such as core-collapse supernovae, and neutrino properties) at the Theory Group of the Institut de Physique Nucleaire (IPN) in Orsay, France.

To be eligible a very good/excellent record and a Master degree during 2008 in a European (or associated) country are required. The thesis should start beginning of November 2008.

Interested candidates should immediately send a very detailed CV and 1 or 2 letters of recommendation to the PhD Thesis advisor :

Dr. Cristina Volpe  
Groupe de Physique Theorique  
Batiment 100  
IPN  
F-91406 Orsay cedex  
FRANCE
