

# PARTICLE COSMOLOGY .

**DESY, Hamburg location, is seeking:  
Theoretical Physicist (m/f) / Tenure Track**

## DESY

DESY is one of the world's leading centres for the investigation of the structure of matter. DESY develops, runs and uses accelerators and detectors for photon science and particle physics.

The DESY theory group pursues a vigorous research programme in the investigation of the fundamental interactions of nature and the fabric of matter, space and time. Research topics include the connection between particle physics and the early universe, in close collaboration with particle phenomenology at colliders and string theory.

## The position

- Engagement in research on particle cosmology at an internationally competitive level
- Participation in the research activities of the DESY theory group

## Requirements

- Ph.D in physics
- International postdoctoral experience
- Excellent research record and international reputation in the area of particle cosmology

Your application should include CV, research statement and list of publications. The position is initially limited for 5 years.

For further information please contact Dr. Wilfried Buchmüller, +49 40 8998-2424, [wilfried.buchmueller@desy.de](mailto:wilfried.buchmueller@desy.de).

Salary and benefits are commensurate with those of public service organisations in Germany. DESY operates flexible work schemes. Handicapped persons will be given preference to other equally qualified applicants. DESY is an equal opportunity, affirmative action employer and encourages applications from women. There is an English-speaking Kindergarten on the DESY site.

Please send your application quoting the reference code, also by E-Mail to:
