

FACULTY POSITION IN INFORMATION SYSTEMS MANAGEMENT

COMPUTER SCIENCE DEPARTMENT

SCHOOL OF ENGINEERING

PONTIFICIA UNIVERSIDAD CATOLICA DE CHILE

Vicuña Mackenna 4860, Casilla 306, Santiago 22, CHILE

Tel: +56-2-354-4440

Email Submissions: faculty-positions@ing.puc.cl

Email Inquiries: Marcos Sepúlveda, Head of the Department, marcos.sepulveda@ing.puc.cl

The School of Engineering at Pontificia Universidad Católica de Chile offers a position in the Computer Science Department at the Assistant Professor level in the area of Information Systems Management, or closely related disciplines, available immediately. The requirements are a Ph.D. degree (at the moment of assuming the position) and a demonstrated ability and commitment to excellence in independent research and teaching in the area of Information Systems.

The successful candidate is expected to join a research group in information systems. Among the research areas of this group are: business process management systems, business intelligence and performance management systems, IT governance, innovation and entrepreneurship within the information technology industry, e-business, e-commerce, process intelligence (e.g., process mining), e-government, information security, and management of information technology departments (e.g., IT project management, IT operation management).

While researchers in different areas related to information systems are encouraged to apply, preference will be given to candidates working in areas related to the above mentioned research areas. Teaching duties are in information systems, at the undergraduate and graduate levels. Being able to teach in Spanish is desirable in the middle term, but is not a requirement to apply. Further information can be obtained at <http://dcc.puc.cl> or from Dr. Marcos Sepúlveda (marcos.sepulveda@ing.puc.cl).

Application instructions are described in the following link and should be submitted before December 15, 2010. Late applications could be considered until the position is filled.
