

Postdoctoral Positions at IFT UAM/CSIC (Madrid)

The Institute for Theoretical Physics IFT CSIC/UAM welcomes applications to postdoctoral positions under various government-funded programs. Interested candidates with scientific expertise in the areas of particle phenomenology, gravitation and cosmology, astro-particle physics, lattice and quantum field theory, quantum information theory and string theory, should file an application for a preselection at the IFT, using the web form below, which requires the upload of a CV and the provision of the e-mails of three referees.

Candidates who are not successful on a given deadline for selection will be kept automatically for the next one, and the application can be updated by the candidate at any time.

Deadlines for application are set as follows, with additional information to be updated on this page regularly.

JAE-Doc program. Deadline December 15, 2011. PhD before February 1, 2012

IFT postdocs. Deadline December 15, 2011. PhD before July 30, 2012.

Juan de la Cierva program, estimated deadline February 15, 2012 (PhD required before (estimated) September 30, 2012, but obtained within the last 3 years.)

In order to apply, please fill out the online application on this link:
