

2012-10-18

Belén Martín-Matute  
Associate Professor  
Organic Chemistry Department

Stockholm University announces **2 vacant PhD student positions in “Organometallic Synthesis and Catalysis: New Methods to Make Carbon-Carbon and Carbon-Heteroatom Bonds”** at the Department of Organic Chemistry.

Ref.nr SU 433-120/12.

Deadline for applications: November 20, 2012

For admission the candidates should have approved the advanced level examination, completed at least 240 credits of course requirements, of which at least 60 credits at advanced level, or have otherwise acquired equivalent knowledge either locally or abroad. Particularly desirable is good knowledge of organic chemistry and general basic subjects of relevance for the researching studies.

Stockholm University strives to be a workplace free from discrimination and gives equal opportunities for all.
