New PhD studentships in Particle Physics (INFN node).

The FP7 Marie Curie ITN (Initial Training Network) INVISIBLES, www.invisibles.eu, is offering one PhD position starting in fall 2013 in one of the INFN participating nodes (Milano, Padova, Trieste-SISSA)

These are very prestigious EU positions.

The thesis subjects of INVISIBLES are on Neutrinos, Dark Matter Physics and/or Beyond the SM physics.

The gross salary is 38000 euros/year plus an additional mobility allowance of at least 700 euros/month, plus substantial funds for travel.

These positions will start being allocated at any moment after the end of March. It is then urgent to inform now the network about interested candidates.

Eligible candidates should:

- obtain the master degree before October 2013 (and if they already held a master degree, having obtained it after October 2009);
- have not been resident in Italy for the last 24 months;.

All applications should be made through the web page www.invisibles.eu/jobs.
