

The Gran Sasso Science Institute (GSSI) has opened a call for PhD applications (deadline 22 June 2014).

40 positions (all with fellowship) are available starting from 1 November 2014 in:

- Astroparticle Physics
- Mathematics in Natural, Social and Life Sciences
- Computer Science
- Urban Studies

GSSI is an international PhD school and a center for advanced studies established in L'Aquila (Italy), activated by the Italian Institute for Nuclear Physics (INFN). Its purpose is to form high level human capital, integrating education and research in a lively interdisciplinary environment.

The GSSI is a project supported by the Organization for Cooperation and Economic Development (OECD).

The PhD degree will be released jointly with prestigious educational institutions such as the post-graduate School for Advanced Studies (SISSA) of Trieste (Physics and Mathematics), the Scuola Superiore Sant'Anna of Pisa (Social Sciences) and the institute for advanced studies Institutions Markets Technologies (IMT) of Lucca (Computer Science).

You can find details on the application procedure in the web page at www.gssi.infn.it

What we offer to our students

We want our students get the best possible experience during their time at the Gran Sasso Science Institute. We provide them free housing plus the standard three years PhD grant. Meals expenses will be covered with luncheon vouchers, and other recreational and cultural services will be offered.

For more information please visit our web site www.gssi.infn.it or contact the School secretary at info@gssi.infn.it
