

OPEN POSITION IN INTEGRATED QUANTUM PHOTONICS

PhD Marie Curie fellowship

An appointment as an Early Stage Researcher (ESR) is available at the Institute for Photonics and Nanotechnologies – CNR, Milan (Italy), on “Development of photonic circuits fabricated by femtosecond lasers for the manipulation of single photons in quantum information applications”, in the framework of the European Marie-Curie Research and Training Network entitled PICQUE (www.picque.eu).

For further information: roberto.osellame@ifn.cnr.it

**Call deadline:
24 March 2014**

Research program:

design, fabrication and characterization of innovative three-dimensional photonic circuits for the manipulation of quantum states of light

Duration: 36 months

Start: 1 May 2014

**Enrollment for PhD
at Politecnico di
Milano**

**Estimated net salary
about 3500 €/month**

**INSTITUTE FOR PHOTONICS
AND NANOTECHNOLOGIES –
NATIONAL RESEARCH
COUNCIL (CNR)**

Piazza L. da Vinci 32
20133 Milano (Italy)
