

This is to announce the opening of four PhD student positions in SISSA within the Astroparticle Group starting this fall.

We currently have active research lines in Gravitation Theory, Early Cosmology, Large Scale Structure, Cosmic Rays and the Dark Universe.

Interested candidates can visit our website

<http://www.sissa.it/app>

for further information about the group and in particular

<http://www.sissa.it/app/phdsection/admission.php>

for details about the admission procedure.

The official announcement and application form can be found here

<http://www.sissa.it/phd-announcements-and-deadlines/astroparticle-physics>

The deadline for this year applications is the 15th of June.

The actual exam will take place the 8th and 9th of July in SISSA.

Travel expenses will be reimbursed by SISSA up to 150 euros (see details in the announcement).

To be admitted at the PhD program students must be in possession of a M.Sc. (or equivalent) degree by the 31st of October 2015.
