

## PhD position at the Quantum Atom Optics group at the UAB

The Quantum Atom Optics group at the Universitat Autònoma de Barcelona announces the opening of a **4 years PhD position** associated to the research project FIS2014-57460-P:

“Quantum transport in ring potentials: from single atoms to interacting degenerate gases”

founded by the Spanish Ministry of Economy and Competitiveness (MINECO).

The [PhD position](#) call is open from **15/06/2015 to 29/06/2015** (at 15h).

Candidates interested in this position should contact:

Verònica Ahufinger ([veronica.ahufinger@uab.cat](mailto:veronica.ahufinger@uab.cat))

Jordi Mompart ([Jordi.mompart@uab.cat](mailto:Jordi.mompart@uab.cat))
