

Postdoc Positions in Theoretical Particle and Astroparticle Physics at Max-Planck-Institut für Kernphysik, Heidelberg, Germany

The Max-Planck-Institut für Kernphysik in Heidelberg, Germany, invites applications for postdoc positions in theoretical particle and astroparticle physics. The theoretical group has a wide range of interests in several areas of physics beyond the SM, model building, dark matter, neutrinos, electroweak symmetry breaking, the physics of the early Universe, etc. Close contacts exist with the experimental groups at the institute and also with Heidelberg University. The group consists of members of the division "Particle and Astroparticle Physics" of M. Lindner, including E. Akhmedov, P. Fileviez Perez and about twenty postdocs and students, as well as the Max-Planck-Fellow group of A.Y. Smirnov and the research group of W. Rodejohann. Further information can be found at <http://www.mpi-hd.mpg.de/lin>

The positions can start any time in fall 2016 for a period of 2 years with possible extension to a third year. Applicants are requested to have a Ph.D. latest by the start of the appointment. The deadline for applications is December 1st, 2015. Applications will be considered until the positions have been filled. Applicants should submit their curriculum vitae, a publication list, a brief description of research interests and three letters of recommendation.

Applications should be uploaded to the AcademicJobsOnline system at <https://academicjobsonline.org/ajo/jobs/6624>
