

Dr. Alberto Wisniewski Jr

Chemistry Department

Petroleum and Energy from Biomass Research Group – PEB

Federal University of Sergipe - UFS

***Classical and Advanced
Mass Spectrometry strategies to
chemical characterization of
liquid products obtained by
thermal conversion of biomass***

June, 21-29th

SEMINARIO I3A. Campus Río Ebro

Edificio I+D+i - Bloque 5, 2^a Planta

11:00-13:00 h

Entrada libre hasta completar aforo

Contacto: Gloria Gea (glogea@unizar.es)

- June 21th** Introduction on the chemical aspects of biomasses and the correlation with the bio-oils components
- June 22nd** Classical strategies of GC and GC/MS to bio-oil analysis
- June 27th** Chemical characterization of bio-oils from lignocelulosic and tryacylglycerols based biomasses
- June 28th** Advanced strategies to bio-oils analysis
- June 29th** Frontiers to bio-oil characterization
