

CONFERENCE

PUBLICATION PROCESS: WHAT AUTHORS ARE FACING?

SPEAKER

Dr. Gregory S. Patience

Université D'Ingénierie. Polytechnique Montreal.

Professor Patience's foray into scientific writing started with a short dos and don'ts regarding redundant words and phrases in articles, which Wiley and Elsevier posted on their websites: Writing a Scientific Paper: From Clutter to Clarity. Following the interest of these major publishing houses, he wrote a book on writing and applied the concept of ink efficiency to text but also to graphs, presentations, and posters (Academic Press, 2015): Communicate science papers, presentations, and posters effectively.
